

Parents,

For the past eight years, the Stars program has taken pride in operating an organized quality program. We provide excellent coaches to encourage and help players prepare for the next level. We are a skill based program focused on player development.

As basketball has changed over the years, so has AAU. AAU now has several levels ranging from Elite (Division 1 & 2) to Recreational (Division 3 & 4). Our focus is to prepare and challenge our teams to play in Division 1 and Division 2 levels. We believe good competition brings out the best in our players.

For this 2014 AAU Tournament Play season, the Silicon Valley Stars Select program is reaching out to parents with skilled players seeking a higher level of competition to play for the Stars.

With the many AAU teams available, you have many choices for your child to play on. I would like to thank you for the consideration of the Silicon Valley Stars Select program and wish your child success whether he/she plays for the Stars or another team.

Regards,

Mel Robertson – Silicon Valley Stars Select Program Director
